The stakeholders/investors business round table is a platform designed to coordinate all stakeholders for the benefit of one another and also a window to enable interested beneficiaries access into federal government palliatives, empowerment and intervention programs.

The National Personal Asset Acquisition Scheme (NAPAAS) is an economic empowerment initiative through Public Private Partnership for Ex-servicemen, ex-paramilitary and other organized pension group for self sustenance, self reliance and poverty alleviation. This social investment initiative was born out of the need to appreciate and cater for the welfare of our ex-servicemen, who have served this nation meritoriously, sometimes paying the ultimate sacrifice for the peace and unity of our nation; keeping its territorial integrity.

In advanced nations of the world, government takes up the welfare programs for ex-servicemen and their dependants including pensionary benefits, re-employment and rehabilitation. They facilitate required training to retired officers to enhance their qualifications and skills in order to help them get quick employment within/ outside the country; provide employment opportunity through concessions and security agencies and also provide self sustenance/employment schemes such as financial assistance for ex-servicemen to set up small and medium enterprises.

Foreign Government /PPP Welfare Programs for Ex-servicemen Include:

Assistance through numerous public private initiatives abound to improve the lots of the serving and ex-servicemen, particularly the veterans; in form of various programs like Hiring Our Heroes initiative (U.S), The Veterans Inc. Supportive Services for Veterans and Veteran Families Program (U.S), Ex-servicemen Welfare Scheme (India), Ex-servicemen Children Scholarships etc.

Here in Nigeria, NAPAAS is a public private partnership schemes (the first of its kind) to access federal government intervention programmes and mobilize funds for investment in projects, businesses and social enterprises with the intention to improve the living standard of ex-servicemen / pensioners, and also generate good financial returns for the Nigeria Legion and for its sustenance. To ensure the implementation of these goals, NAPAAS operates projects in the asset financing, housing, capacity development, agriculture, transportation, healthcare, environmental and hospitality sectors of the Nigerian economy.

Stakeholders under this initiative include the Federal and State Governments of Nigeria, The Private Sector, Donor Agencies, Non-profit Organizations, Financial institutions geared towards economic development, multinational corporations, cooperative societies and the Nigerian Public.

Economic Empowerment Programs

Furthermore, NAPAAS is working towards actualizing the President Muhammadu Buhari's social intervention programme for Nigeria. This empowerment programme known as the Social Safety Net programme provides a safety net to individuals and families to protect them from poverty. The Safety net programs include cash and in-kind transfers targeted to poor and vulnerable households and presented in form of N-Power programme, Home Grown School Feeding, cash transfer as well as Government Empowerment and Enterprise Programme.

NAPAAS is a platform through which basic needs items could be accessed, including access to health care, agriculture, transportation, skill acquisition, Housing and other Government Intervention programs for self sustenance and reliance.

President Buhari's Empowerment & Enterprise Programs

The National Launch and flag off of the NAPAAS Scheme held in Jos on March 23, 2018, highlighted the importance of the need to support the Nigeria Ex-service, Ex-paramilitary, and pensioners in achieving sustainable standard of living and alleviation poverty.

As part of its corporate strategy for the scheme, NAPAAS plans to organize quarterly business roundtable discussion programs for all stakeholders as a platform for promoting and enhancing the NAPAAS Scheme

Business Networking Opportunity Workshop

The investment and business audience expected at these business roundtable include:

1. Leading policy makers, regulators & academics,
2. Business leaders & investors
3. High level government officials including members of the state and federal legislative assemblies, and the leadership of the state executive branch of government.
